

# STAY CONNECTED WHEREVER YOU GO

## BATS KEEPS YOU CONNECTED

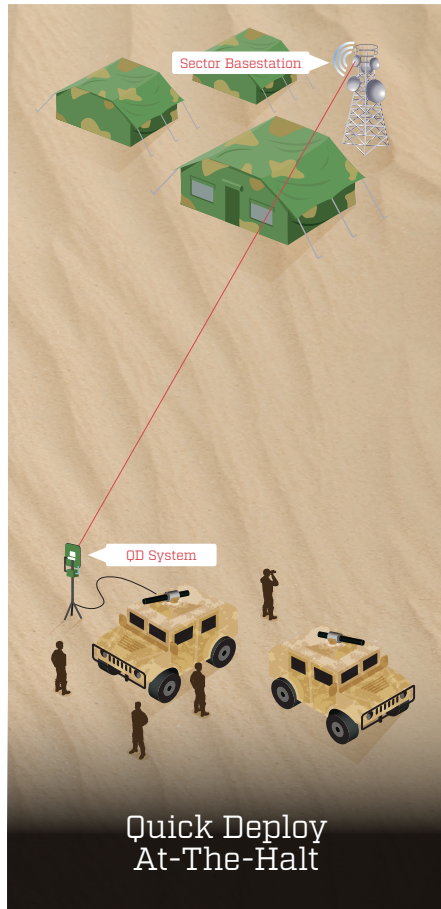

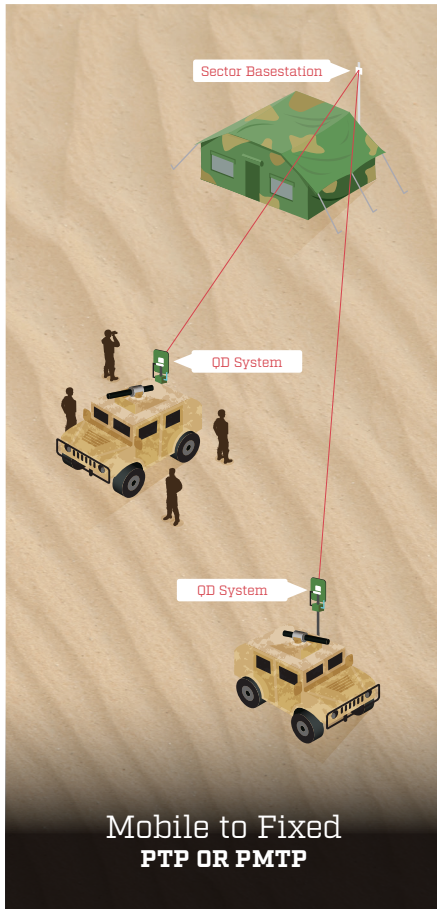

Lightweight and rugged, BATS Quick Deploy (QD) series is a radio and frequency agnostic, multipurpose, automatic alignment and tracking system. Offering gigabit speeds of connectivity, a BATS QD system provides an easily deployable, stable and reliable high capacity signal, ideal for scenarios where users want fast deployment of broadband communications. A BATS QD system can be easily mounted on masts, shelters, or towers for operators looking for reliable Line-of-Sight (LoS) communications in a small package.
